PROFESSIONAL SUMMARY

Senior Full Stack Developer with 5+ years of enterprise experience across the complete stack — ASP.NET Core and C# on the backend, React and TypeScript on the frontend. Spent nearly 4 years on a mission-critical platform serving 50+ US law enforcement agencies, handling everything from backend architecture and CI/CD pipelines to React UI development and real-time systems. Comfortable owning complex codebases, leading small teams, and delivering in high-stakes production environments. Additional hands-on experience building AI-powered applications using Claude API and OpenAI API.

TECHNICAL SKILLS

Backend: ASP.NET Core, C#, .NET Framework, Node.js, REST API Development, Microservices

Frontend: React, TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap, jQuery, Redux

Database: SQL Server, PostgreSQL, SQL Query Optimization

DevOps & CI/CD: Azure DevOps, Git, GitHub, Automated Build & Deploy Pipelines

Real-time & Infra: SignalR, WebSockets, Microservice Architecture, Azure

Integrations: Microsoft Dynamics CRM, Payment Gateways, E-signature APIs, nopCommerce

AI Tools: Claude API, OpenAI API, Groq AI, Prompt Engineering, Cursor (AI-native IDE)

Tools: Visual Studio, VS Code, Jira, GitHub

WORK EXPERIENCE

Team Leader / Senior Full Stack Developer | **TatvaSoft** | Jun 2022 – Apr 2026 | Ahmedabad, India (Remote)

Public Safety Platform — ASP.NET Core · C# · React · TypeScript · Node.js · SignalR · SQL Server · Azure DevOps

- Owned and stabilized a complex enterprise law enforcement platform serving 50+ US agencies — resolved long-standing production issues and improved overall system reliability.
- Built and maintained CI/CD pipelines using Azure DevOps — automated build, test, and deployment workflows across multiple environments.
- Developed React and TypeScript components for complex dashboard UIs, crime analytics visualizations, and role-based access control systems.
- Built NIBRS compliance features and automated data broker integration for submitting standardized FBI crime reports to federal databases.
- Integrated SignalR real-time communication enabling live updates across emergency dispatch and reporting systems — zero downtime in production.
- Designed and maintained microservice-based integrations for secure data exchange across multiple public safety systems.
- Progressively modernized application UI and backend architecture — improving maintainability and long-term scalability.
- Led team of 4-6 developers — code reviews, technical mentoring, sprint planning, and delivery ownership.

Document E-Commerce Platform — nopCommerce · C# · ASP.NET Core · Payment APIs · CRM

- Built custom nopCommerce extensions for digital product sales, subscription management, and secure document delivery.
- Integrated Microsoft Dynamics CRM, payment gateway APIs, and e-signature APIs for automated customer workflows.

Software Engineer | **Version Systems Pvt. Ltd.** | Jan 2021 – Jun 2022 | Rajkot, India

- Built enterprise HR performance management system — 360° feedback, goal tracking, productivity dashboards, and SQL reporting.
- Developed timesheet and project allocation system — replaced manual spreadsheet processes with automated workflows.

KEY PROJECTS

Public Safety Software Platform

Stack: [ASP.NET Core](#) · [C#](#) · [React](#) · [TypeScript](#) · [Node.js](#) · [SignalR](#) · [SQL Server](#) · [Azure DevOps](#)

- Mission-critical enterprise platform for 50+ US law enforcement agencies — NIBRS compliance, real-time dispatch, crime analytics, CI/CD pipelines.

AI-Powered Chatbot & Automation Agent

Stack: [Claude API](#) · [OpenAI API](#) · [Groq AI](#) · [Node.js](#) · [React](#) · [TypeScript](#)

- Built conversational AI chatbot using Claude API with custom system prompts and multi-turn context management.
- Developed automated WhatsApp messaging agent using Groq AI — end-to-end workflow automation with AI-driven message generation.

Document E-Commerce Platform

Stack: [nopCommerce](#) · [C#](#) · [ASP.NET Core](#) · [Payment APIs](#) · [E-signature APIs](#) · [Microsoft Dynamics CRM](#)

- Custom enterprise marketplace with subscriptions, digital delivery, payment processing, and automated CRM synchronization.

EDUCATION

Bachelor of Engineering, Computer Engineering

CPI: 9.01 | Darshan Institute of Engineering and Technology | 2018–2021
