SUMMARY

Full Stack Developer with 5+ years of experience building scalable web applications and enterprise systems. Skilled in **React, JavaScript, Node.js, REST API development, and SQL databases**. Experienced in API integrations, real-time communication systems using SignalR, and modern web application architecture.

TECHNICAL SKILLS

- **Frontend:** React, JavaScript, HTML, CSS, Bootstrap, jQuery
- **Backend:** Node.js, ASP.NET Core, REST API Development
- **Languages:** JavaScript, C#, SQL
- **Database:** SQL Server, PostgreSQL
- **Tools:** GitHub, Jira, Visual Studio, VS Code
- **Technologies:** SignalR, API Integration, Payment Gateway Integration, E-Signature APIs

WORK EXPERIENCE

TatvaSoft

Senior Software Engineer

Jun 2023 – Present

Ahmedabad, India

- Worked on enterprise **Public Safety Software** used by law enforcement, dispatchers and emergency response teams.
- Developed and enhanced **React web modules** integrated with backend **REST APIs**.
- Built and maintained **REST API services** and implemented real-time communication using **SignalR**.
- Maintained microservice-based interfaces for secure data exchange across multiple systems.
- Integrated third-party APIs and improved application performance.

Version System

Software Engineer

Jan 2021 – Jun 2023

Rajkot, India

- **Performance Management System (PMS)** – Built system for employee productivity tracking and 360° performance reviews.
- Developed backend modules, **SQL queries**, and reporting dashboards for analytics.
- **Timesheet Management System** – Developed application to track employee working hours and project allocations.
- Automated reports and improved accuracy by replacing manual spreadsheet processes.

PROJECTS

• Public Safety Software Platform

- Enhanced enterprise **public safety platform** used by law enforcement and emergency dispatch teams.
- Implemented features supporting **NIBRS (National Incident-Based Reporting System)** used for standardized **FBI crime reporting**.
- Developed **React web modules** integrated with backend **REST APIs** for incident and records management workflows.
- Implemented **SignalR real-time communication** enabling live updates across dispatch and reporting systems.
- Built secure **microservice-based integrations** for automated data exchange between multiple public safety systems.

- **Document E-Commerce Platform**

- Customized enterprise **nopCommerce-based document marketplace** supporting subscriptions and digital document delivery.
- Developed **custom nopCommerce extensions** to support document workflows and platform-specific business logic.
- Integrated **payment gateway APIs** and **e-signature APIs** to automate secure document signing workflows.
- Integrated platform with **Microsoft Dynamics CRM** for automated customer data synchronization and order management.

- **Performance Management System**

- Developed enterprise **HR performance management platform** used for employee evaluation, goal tracking, and productivity analytics.
- Implemented modules for **360° feedback, goal tracking, employee reviews, and HR performance dashboards**.
- Developed backend services and **SQL reporting queries** enabling HR teams to analyze workforce performance metrics.

- **Timesheet Management System**

- Developed enterprise **timesheet management system** using **.NET, jQuery, and AJAX** for tracking employee work hours and project allocations.
- Implemented features for **task logging, approval workflows, and reporting dashboards**.
- Built backend services and integrated **REST APIs** for secure data processing and reporting.
- Improved reporting accuracy by replacing manual spreadsheet based time tracking.

EDUCATION

- **Darshan Institute of Engineering & Technology**

Bachelor of Engineering in Computer Engineering (CPI: 9.01)

Aug 2018 – Aug 2021

Rajkot, India

- **Noble Group of Institutions**

Diploma in Computer Engineering (CPI: 8.61)

Aug 2012 – Aug 2015

Junagadh, India
